Steps for Mobile Device Access

To access with a mobile device begin by typing the server name eunity.ausrad.com into the server section of the log in screen. After you enter the server name for the first time it will automatically be remembered for future use.

1) Verify your connection is good by clicking the connection icon. You should see the green bar pictured below. If your connection is not successful, make sure your data connection is strong or that you are connected to Wi-fi.
