

Important PACS Upgrade

On Saturday, February 17th, ARA will be performing an upgrade to the FUJI Synapse application. After the upgrade is complete, the first study that you open will prompt you to upgrade Synapse as shown. Click the Download and Install Now button and then click Run if prompted.

Users running a version older than IE11 will need to utilize our Citrix website at <https://citrix.ausrad.com> in order to access the Synapse upgrade.

If you are using Citrix to access Synapse, no action is required. If you have any questions or run into problems with the upgrade, please call the ARA Technical Assistance Center at (512) 531-7227.
